Image description: a chart of 246 race and ethnicities, layered in five concentric circles. Text that represents a race/ethnicity is coupled with a number representing the number of times this race/ethnicity is mentioned in the application forms. The outmost layers represent the highest-number mentions (Black, white, and African-American), the inner-most circle represents race/ethnicities only mentioned once. A colored logo of Dance/USA appears on the upper left hand corner of the chart. Credit info: Race/Ethnicity mentions from original applicant pool (Round two). Data visualization chart created by Gene Pendon (design) and Michèle Steinwald (data).

Please contact the program team for the full text list of terms.
